

Credentialing Fact Sheet

The Alliance partners with WPS to fulfill our credentialing needs . This information is relevant to Alliance participating providers, with the exception of chiropractors. Chiropractors may contact Magellan for credentialing information.

You will receive credentialing application materials for each practitioner who has not already been credentialed by WPS once we notify them that your contract has been processed and registration has been completed.

****Please note:*** *Practitioners requiring credentialing may not be considered in-network for some plans until credentialing has been completed and approved.*

The following is a list of practitioner types for which we require credentialing:

- Physician and PhD level (for example, MD, DO, DPM, OD, PhD, PsyD)
- MS level (for example, LCSW, CSAC, LMFT, LPC, SAC)
- Nurse Clinician and Physician Assistant level (for example, RN, APNP, CNM, NP, LPN, NC, PA)

Please note, there are exceptions to this list and several specialties for which we do not require credentialing, they include but are not limited to facility-based Radiology, Anesthesiology, Pathology, Hospitalists and Emergency providers.

Should you have any questions about this process please contact us at providerservices@the-alliance.org.
