

# THE ALLIANCE PREMIER NETWORK

## What is it?

The Alliance Premier Network offers employers the flexibility of a multi-level benefit plan, and is a great way to direct your employees to low-cost, high-value providers without limiting their provider options. Levels essentially provide a preferred option, a secondary preferred option, and a comprehensive network option. This set-up doesn't limit where your employees can choose to seek treatment, but by using incentives, it allows you to direct them towards higher-value care.

*flexibility of  
a multi-level  
benefit plan*

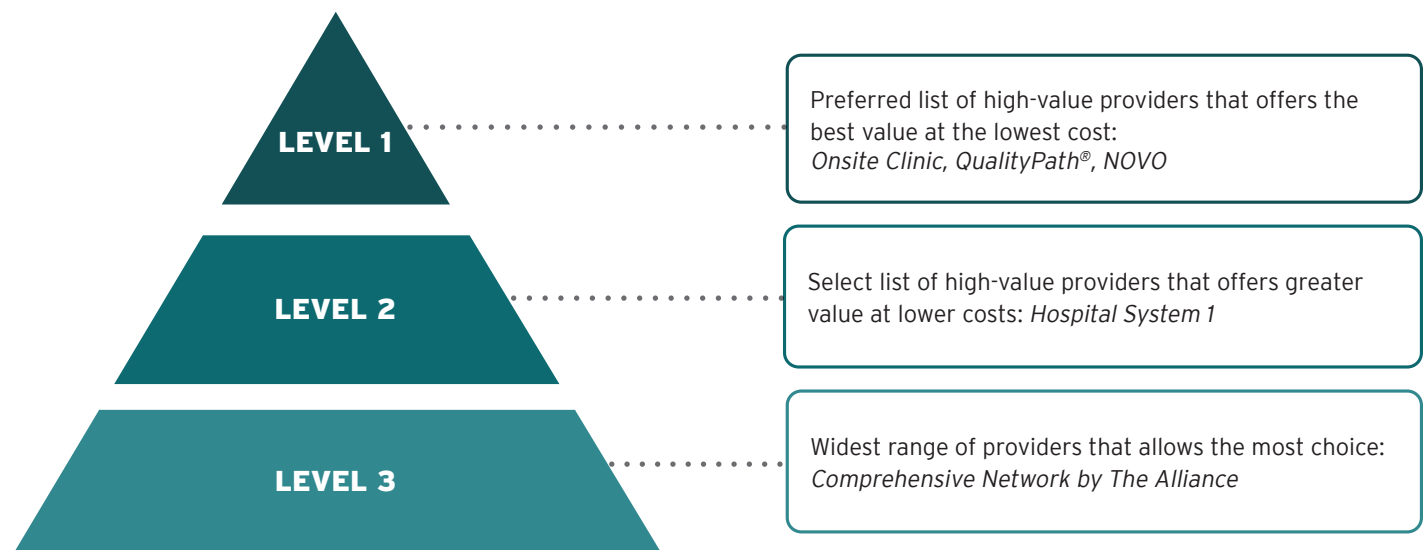

*incentivize your  
employees to  
choose  
cost-effective  
providers*

## Why Does it Matter?

You may want to offer more or less choice depending on where your employees live. The amount of customization we offer can support up to four levels. By offering different levels, you can incentivize your employees to choose cost-effective providers. This reduces your plan spend and saves them money. For employers that want to offer the widest range of choice possible.

## What Does it Look Like?

Here's one example of how a multi-level network can look:

## What Will the Network Look Like for My Employees?

ALLIANCE PREMIER NETWORK SAMPLE					
Levels	Deductible	Coinsurance	Providers		
Level 1 (Optional)	\$0.00	100%	Innovation Health (NOVO) QualityPath Providers On-site/Shared site clinics		
Level 2	\$100.00	90%	<table border="0"> <tr> <td>                     UW Hospital / UW Children's Hospital /                      UW Home Health                      UW Systems                      UW Health - Physicians                      Wisconsin Sleep, Inc.
