

The Comprehensive Network by The Alliance

We've partnered with over 34,000 doctors and health care providers across the Midwest. Using this robust provider pool, we work with our clients to develop custom provider networks (Smarter NetworksSM) that optimize savings and quality.

And because we're never satisfied in providing high-value health care to our clients, we continue to grow, expanding our network to give them even more choice, control, and cost-savings.

135+
HOSPITALS

34,000+
DOCTORS & OTHER PRACTITIONERS

360+
HOME HEALTH/
DME LOCATIONS

7,500+
CLINIC SITES

-  HIGH CONCENTRATION OF IN-NETWORK PROVIDERS
-  HOSPITAL LOCATIONS
-  SPECIALTY HOSPITAL LOCATIONS
Offers specialty care for children, rehabilitation, surgery, or other services.

AVOID OUT-OF-NETWORK CHARGES

Employees can use our Find a Doctor transparency tool to see if a specific provider is in-network. If they choose an out-of-network provider, they'll pay higher out-of-pocket network charges and be billed the difference between what the provider charges and what their plan pays.

About The Alliance

The cure for health care as usual.

Who We Are:

- We serve as the voice for self-funded employers and their brokers seeking more control over their health care costs, offering unparalleled transparency and custom provider networks for serious savings.
- Nobody else approaches benefit and network design with our level of passion and commitment; we unlock savings that others can't – or won't – using Smarter NetworksSM and sophisticated data mining and analysis.
- As a not-for-profit employer-owned cooperative, The Alliance is owned by 300+ employers across the Midwest and remains a trusted, objective partner for employers and their brokers.

What We Do:

- The Alliance offers greater access to high-quality health care by contracting directly with over 34,000 doctors and providers across the Midwest, which means broad freedom of choice and protection against out-of-network surprise bills for employees and serious savings for employers.
- Through Reference-Based Contracting by The Alliance[®], we negotiate directly with providers to lock in low prices at a percent of Medicare. This unprecedented transparency helps employers and brokers compare prices while offering employees high-value health care.

DATA-DRIVEN CUSTOM NETWORKS

We'll work closely with you (or your client) to design a Smarter Network that enhances your access to high-value (high-quality and low-cost) providers.

FLEXIBLE PARTNERSHIPS

We're open to partnering with any TPA or vendor you already work with – or plan to. We'll support you in any way we can to help you achieve high-value health care.

COST-MANAGEMENT FOR SERIOUS SAVINGS

We're here to drive savings for you (or your client) by using tools that dig deep into your data. We'll go where no other health plan has to unlock your true savings potential.
