## Checklist for Colonoscopies

Has your doctor told you that you need a colonoscopy? Follow this checklist to make sure you get the most out of your QualityPath<sup>®</sup> benefits.

### 1 Scheduling your Colonoscopy Appointment

- Find a QP provider here: [the-alliance.org/qualitypathnetwork](https://the-alliance.org/qualitypathnetwork)
- If your doctor's office is making the referral for you, give them the list of designated doctors and locations. Otherwise contact the QualityPath clinic or hospital yourself to schedule your appointment.
  - Make sure you ask for an appointment with a QualityPath designated surgeon.
  - Have your insurance card handy as they may ask you for that information.
- Tell The Alliance about your upcoming appointment:
  - The Alliance must be notified for your upcoming colonoscopy.  
Call the **Patient Experience Manager** at **800.223.4139 x6607**.
- Print your QualityPath program card here: [the-alliance.org/qpcard](https://the-alliance.org/qpcard)

### 2 Day of Your Colonoscopy

- Have a person take you to your appointment and bring you home. The doctor may choose not to do the procedure if you do not have someone to take care of you.
- Bring your insurance card and your QualityPath program card.
- If the colonoscopy can't be completed during your visit, contact The Alliance at 800.223.4139 x6607 to make sure your rescheduled appointment is covered under the QualityPath level of benefits.

### 3 After Your Colonoscopy

- Your doctor will receive information about the test directly from the QualityPath provider.
- If you have complications due to the procedure, first get help as directed by the colonoscopy provider. Then contact The Alliance at 800.223.4139 x6607 to report a potential warranty claim. The warranty covers emergency care, urgent care, or inpatient care for gastrointestinal bleeding, abdominal pain and perforation related to the colonoscopy up to 7 days following your test.

If you have questions, please contact The Alliance Customer Service at 800.223.4139 x6607.
