Healthcare Transformation Award Nominations

Do you know someone who is positively impacting healthcare? Nominate them for a Healthcare Transformation Award!

[Submit a Nomination](#)

Just fill out the submission form by May 31, 2023, and we'll contact the nominees. Winners will be awarded live at our Fall Symposium & Annual Meeting on October 24, 2023.

Who is eligible?

Any person or business that's moving healthcare forward in a big way. Potential recipients include employers, providers, pharmacy benefit managers, third-party administrators, brokers, and more. You can even nominate yourself!

What are the requirements?

Nominees must move healthcare forward in a way that aligns with one (or all) of the four core drivers of **High-Value Healthcare**:

1. **Transparency:** You can't manage what you can't measure. Improving price transparency and/or implementing a better way to measure healthcare quality.
2. **Payment Reform:** Creating a program that rewards value-based care (cost-effective, high-quality care) over volume of care (fee-for-service).
3. **Provider Network Design:** Customizing your provider network to give your employees more high-value healthcare options while reducing their costs.
4. **Benefit Plan Design:** Using incentives to drive your employees to seek care from high-value providers and utilize primary care.
5. **High-Value Healthcare:** Taking action to significantly improve the quality of and/or affordability of healthcare.
